Health Care Planning & Operational Research Workshop

ASOR is pleased to invite you to the 2016 workshop on Health Care Planning and Operational Research. Operational Research (OR) is the application of advanced analytical methods to make better decisions. At this workshop, leading researchers and practitioners in health care planning, data science and OR will share their latest developments and ideas with you. The workshop will also provide an opportunity for you to showcase your projects and thought leadership to a high calibre audience.

Surveyors Room, Treasury Casino Hotel, Brisbane | 8.30am-5pm, Friday, 7th October, 2016

KEYNOTE SPEAKER

Susie Pearn, Health Expertise Leader, Aurecon
